

Discover life *without allergies*

Circava System™ therapy is a powerful *alternative* to allergy shots

Circava System therapy is a novel, patented allergy treatment system developed by a board-certified allergist and proven over many years of clinical use. It's just as effective as SCIT allergy shots but in a more convenient oral dose that you take before bedtime.

The power of the Circava System is unlocked by your body's natural sleep cycle, providing long-lasting relief with results in as little as 4 weeks!

If you have allergies, ask your doctor about the Circava System!
